

Attention disabdis@humanrights.gov.au

Application Exemption under DDA Section 55:
Cinema Captioning and Audio Description

Object

You can say why or add you want to say something in the box listed below:

Additional Information:

Of limited screenings it is not rocket science to implement an increase in number of caption screenings, even if the cinema is not having a full audience capacity, and to allow the Deaf (and blind) community to attend screenings enabling these people coming in from afar just to attend a particular screening date, time and session. The chains will still rake in profits from ALL sections of the community, Deaf, Blind and Hearing.
