

Hello, my name is Christopher I've emailed before, but I wanted to email again because I have so little faith in the human rights commission to make the right call on whether or not to give the government it's BSWAT exemption.

FOR THE LOVE OF GOD!!! DON'T GIVE IT TO THEM!!

Firstly, they want a three year exception?? Disabled workers have been getting screwed over for the last ten years and they want to keep the discrimination going for another three years?? That alone is a reason to tell the government to jump of a cliff.

Secondly even the UN says the government should stop stalling and get their shit together.

Convention on the Rights of Persons with Disabilities

Right to work (art. 27)

49.The Committee is concerned that employees with disabilities in Australian Disability enterprises (ADE) are still being paid wages based on the Business Services Wage Assessment Tool (BSWAT).

50.The Committee recommends that the State party:

(a) Immediately discontinues the use of the BSWAT

(b) Ensures that the Australians Supported Wage System (SWS) is changed to secure the right assessment of the wages of persons in support employment.

(c) Adopts initiatives to increase employment participation of women with disabilities by addressing the specific underlying structural barriers to their workforce participation.

I mean you human rights people are like the same as the UN human rights people?? You have to stick together and tell the government not to be dicks, it's your job to do that, not to give them exceptions to other peoples human rights. Us disabled people already have a hard time getting the general population to be leave we're humans like them, if you go exempting our rights as humans I may as we'll go live in the kennel.....with the bloody dog.

Also, while your at it could you lot please tell the government not to be cheap and to pay back pay for the last decade?? That will go along way in catching us up to our non disabled peers. Also tell them to just take the questions out of BSWAT and keep the productivity bits and they have their BSWAT replacement.....why they think they need three years to do that is beyond me??

Thank you

Christopher Forssman

P.S

As you can probably tell, I struggle with using words, this is why BSWAT screwed me over so hard.....if what I write to you makes no sense, fine.....just put it on the pile of emails marked "no to government BSWAT exemption"

Thank you again

Christopher
