

who the hell does the human rights commision think they are to even listen to someone wanting an exemption to MY human rights?? Go exempt your own human rights, leave mine alone. The sheltered workshops and the government want my human rights excluded to help me keep my job??? given a choice between my human rights (any of them) and a job that pay \$4.50 an hour I think I will hold on to my human rights thank you.

Thank you  
Paul Rover
