

The President of The Australian "H.R.C"

Dear Gillian Triggs, this morning we got a surprise when we heard that we can write a letter to you. We are in Nauru for about 4 months, and I spend 6 months in Christmas Island, without my Parents.

We are in a very bad condition. When our teacher told us that we can send our voices to some high people. I said that we already send our voices many times. We met a lot of people for example, we met Sarah Senait the Green Team, but it is still not effective.

Health care:-

I have a tooth ache almost 4 months, but there is no one to solve my problem. I can't sleep at night, even I can't talk to any one, because my tooth is very painful.

I put a lot of request for the Dentist but the only answer that I have got, there is just one dentist. You have to wait for 6 months.

We are getting crazy. Imagine putting your self in our conditions, if you have a tooth ache for 4 months, what will happen to you?

We are living under the tents sometime we have insects, crabs, spiders 4-6 cm large I am scared without my parent.

We are living in a hot weather. We have to wait for school bus under sun in a very hot weather, and we don't have water for showers some times for 3, 4 days. temperatures can reach $45^{\circ}+$.

2/3

We need the best education. It is the most significant thing for me, but we don't have it. I have a lot of goals in the future, but I am stuck in jail. How can I achieve my goals. I want to be Economist.

We need someone to support us, but we don't have it. Since the children are treating us very badly every day they bring new rules, and telling us you have to do this, because this is our rules, you must obey rules or the rules changed and these constant changes make us feel angry and powerless.

They are treating us like we are criminals for everything we have to wait.

I was the first under age minor with my 9 peers that we came to Nauru from Christmas Island.

We are in a very tough condition. Every one of us killing their hopes. We don't have sleep at night because we are worried about our future.

What will happen to our future? We are by our selves and alone. Immigration is telling us that we will be in Nauru up to 5 years. Tell us how we can be happy? Yes. I accept that we are safe now, but instead of this point we are worried for our future. Everything is very tough for us in here.

What is our fault? That we came to Australia after 19 July? We are not criminals. Already 10 months we are in detention center. It will be great if we put in jail instead of detention center.

We are thirsty for freedom.

Why we have to have these things that we don't like.

The only answer that we've got. you are in Nauru you have to otherwise go back to the scary condition in Afghanistan.

Please do something for us. we are getting crazy in here. Please!

We escape from Afghanistan to have a safe life bright future, but we are in detention center almost 1 year

Can anybody hear us.

Can anybody solve these issues.
